The left sidebar contains navigation links: What is Amazon Corretto 17?, List of Patches for Amazon Corretto 17, Linux, Windows, macOS, Docker, Downloads (selected), and Document History. The main content area displays a terminal command: `curl -LO https://corretto.aws/downloads/latest/amazon-corretto-17-x64-linux-jdk.tar.gz`. Below the command, a note states: "Note: Permanent URL's are redirected (HTTP 302) to actual artifact's URL. These links can be used in scripts to pull the latest version of Amazon Corretto 17." A table lists download links for Linux x64 and Linux aarch64. The table has four columns: Platform, Type, Download Link, and Checksum (MD5).
